Photoshop for Enthusiasts

Course Brief

This course starts you off with the basics of the Photoshop interface and quickly gets you working on hands-on projects based on real-world design scenarios. You'll learn to choose and use the best techniques for common Photoshop jobs including selecting and creating image composites, setting typography, and improving images with retouching and effects.

Duration 60 hrs (20 days X 3 hrs per day)

Modules

- Interface and tools
- Color Correction and Retouching
- Movie Poster or Concept Art
- Photo Manipulation
- Typography

- Poster Designing
- Creativity with filter and effects
- Working with Vector Graphics

Learning Outcome

Student will be fully versed in the use of the basic tools of Adobe Photoshop, and able to open, edit and prepare images for use in print, digital media or internet.

Software

- Photoshop
